

Get 100 per cent of flight delay compensation with FairTravel

A 100 PER CENT CUSTOMER POSITIVE SOLUTION

FairTravel insures customers to enjoy all the advantages of the successful air passenger rights portal FairPlane and, thanks to the coverage with FairTravel, to receive the **full compensation they are eligible to!**

For only EUR 9.90 per year, clients are insured, can claim up to two cases per year and receive the full compensation in justified cases. Other similar solutions on the market charge an average of 25-30 per cent success commission, whereas with FairTravel, FairPlane guarantees a 100 per cent positive customer solution.

Since 2011, FairPlane is a customer-centric online platform, assisting passengers in claiming reimbursement payments in case of flight delays, flight cancellations, denied boarding or missed flight connections. FairPlane has access to all relevant flight data and the legal expertise, enabling them to make a successful claim on behalf of their clients, including all of the paperwork.

PERSONALISED INSURANCE FOR DELAYED, CANCELLED OR OVERBOOKED FLIGHTS

Within the past 12 months, there were more than 1.7m delayed and about 100k flights cancelled in Europe.

In many cases of flight delays, cancellations, denied boarding or missed flight connections, caused by fault of the operating air carrier, a passenger is entitled to claim for compensation of up to EUR 600 according to EU regulation 261/2004. Airlines frequently ignore or reject claims for compensation – this is where FairPlane comes into play.

QUICK IMPLEMENTATION OF FAIRPLANE INSURANCE INCLUDING RISK-CARRYING

Together with FairPlane, ELEMENT implemented this innovative, fully digital product in record time, thanks to the modular technology platform of ELEMENT. According to German legislation, ELEMENT being fully licensed in 28 EU-countries, acts as risk-carrier for the FairPlane insurance.

With ELEMENT we found an ideal partner. ELEMENT not only offers the technological platform, but also the insurer license, necessary according to German legislation, to implement this innovative travel insurance in record time.
